ABSTRACT

The softcopy of the abstract must be submitted in processable textual format and is limited to **300 words**. If it is necessary, supporting figures can be presented as part of the text and total content is limited to one page including supporting figures.

- **Introduction:** (indicate the background of the study and the purpose/ hypothesis)
- **Methods (and materials):** (include the setting for the study, the subjects, and the type of statistical analysis; if references are needed, they should be given in the text)
- **Results:** (present as clearly as possible the outcome of the study and statistical significance if appropriate)
- **Conclusions:** (briefly discuss the data and emphasize the significance of the results)
- Maximum of two numbers of tables/illustrations are allowed, provided the author submits a copy of the table/illustration in high resolution (300 dpi or higher)

KEYWORDS

Please enter maximum of 5 keywords.

Digital Health Sri Lanka 2019

17th & 18th October 2019, Marino Beach Hotel, Colombo

“Towards an electronic health record for every Sri Lankan”

<http://dhsl2019.org> #DigiHealthCon

Call for Abstracts

The Conference

Digital Health Sri Lanka 2019 is the 12th Conference organized by the Health Informatics Society of Sri Lanka (HISL). Over the years it has grown its stature and in its current form, we are happy to see it as a truly international conference.

'Towards an Electronic Health Record for every Sri Lankan' being this year's theme, the conference plans to bring together stakeholders in the Healthcare, professionals in IT and the decision makers to one forum to make a significant impact in the quality of Sri Lanka's truly unique health care system.

We believe it will be ideally suited to gain valuable insight, exposure and develop the acquaintances with the stakeholders in the new IT enabled health care system during the conference period.

Conference Tracks

- Electronic Health Records (EHR)
- Continuum of Care Transformation through Digital Health
- eLearning
- Digital Health the Opportunities and Challenges
- Improving Quality of Health Data
- Digital Health in Non-Communicable Diseases
- Telemedicine and Telehealth
- The Private Sector in the Digital Health Ecosystem
- Digital Health in Reproductive, Maternal, Neonatal, Child and Adolescent Health
- Personalised Medicine
- Emerging technologies in Digital Health
- Nursing Informatics
- Digital Health in Health Promotion and in the Pharmacy

Abstracts should be submitted through <https://sljbmi.sljol.info/>
Only the abstracts submitted through the online system would be accepted.

Abstract Deadline - September 14, 2019; Abstract Decisions – October 2019

Health Informatics Society of Sri Lanka
